josh**knutson**

Motivated Developer with 15+ years of Web Skills. Recognized for assessing operational needs and developing solutions to save costs, improve revenues, and drive customer satisfaction. Resourceful and well-organized with excellent leadership and team building record. Wearing many hats to keep the back-end code working efficiently and doing tests to make sure the application stays up to par with expectations. Continually inspect and watch for performance tuning that can happen. Run tests to tweak or fix potential accessibility issues. Working with clients and with employees on numerous projects to get things done more efficiently than previously. Working with different vendors and understanding their processes, to broker data between applications. Helper to maintain and keep customer relations to the highest grade possible. Lead Software Developer in helping design a better product with my team.
